Student:		Instructor:										
Run Group:		 Date:										
· <del>-</del>		<del></del>										
Attitude and Aptitude					Poor		Excellent					
Attitude and Aptitude							1	2	3	3	4	5
Student has good attitude tow	ard learning											
Student asks questions and co												
Student possesses aptitude for	r driving											
Student's car is appropriately p												
Student accepts instruction an	d follows commands imme	diately										
Situational Awareness												
Aware of the traffic around an	d behind											
Uses proper passing signal for overtaking cars												
Gives timely point-by to allow faster traffic to pass												
Uses proper pit-in and pit-out	procedures											
Aware of flags and changing ro												
Drives within limits of their abi												
Mechanics												
Sits the proper distance from t	he steering wheel											
Sits in the seat, not on it	are steering wheel											
Maintains three o'clock and ni	ne o'clock hand position											
Shifts smooth-does not ride sh	·	propriate for car										
Sints sinodir does not nde si	int level una/or cluter if up	or opriate for ear
