Arrangements have been made with these shops to perform pre-tech inspections. **For all shops listed, the inspections are done by appointment only. It is highly recommended this be scheduled well in advance of the event. The fee for the pre-tech inspection is at the discretion of the shop.** Any repairs or service required to prepare the car for the race track is the responsibility of the owner. We will also accept inspections from any dealership or authorized repair facility. Race cars with current log books do not require a pre-tech inspection.
